Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the questions

Newspapers and television news programs always seem to report about the bad things happening in society. However, there is a place where reader can find some good news. That place is the website called *HappyNews*.

The man behind HappyNews is Byron Reese. Reese set up HappyNews because he thought other news sources were giving people an unbalanced view of the world. Reese said about HappyNews, "The news media gives you a distorted view of the world by exaggerating bad news, misery, and despair. We're trying to balance out the scale".

Not everyone agrees with Reese's view, though. Many people think that news sources have a responsibility to provide news that is helpful to people. People need to know about issues or problems in today's society. Then **they** are better able to make informed decisions about things that affect their daily lives. Reese said that HappyNews is not trying to stop people from learning about issues or problems. HappyNews is just trying to provide a balanced picture of today's world.

By the end of its first month online, HappyNews had more than 70,000 unique readers. About 60 percent of those readers were women.
