

*** You will hear an announcement (by a woman) and a small talk (by a man) twice . Listen carefully and choose the correct answer to each question.**

1. How often does this company have a staff picnic?
A. Every month B. Every year C. Twice a year D. Every Christmas
2. Which of the following will NOT be available at the picnic ? * available (a) : sẵn có
A. A barbecue B. Drinks C. Games D. A movie
3. Which prizes are mentioned ?
A. A holiday and a CD player B. A DVD player and a CD player
C. A DVD player and a holiday D. A holiday and a television
4. Why does the speaker want to be a doctor ?
A. To help sick people B. To earn lots of money
C. To work in a hospital D. To study at university
5. How long was the speaker's mother in the hospital?
A. One week B. Two weeks C. Three weeks D. Four weeks

*** Read the following passage and mark the letter A, B, C or D to indicate the correct answer to each of the questions .**

Today our knowledge of food and what it does for our bodies is far more advanced than that of the ancient. Now we know about vitamins and how each kind of vitamin helps in the growth of a particular part of our bodies. There are on the market all kinds of vitamin pills which one can take to make up for one's lack of certain important things which are needed for normal health. Of course, if we eat well and properly, the food that we eat will **take care of** our bodies without these pills and so there is no need to take any kinds of vitamin pills unless our doctor tells us that our bodies are short of something which can be supplied by them.

Generally speaking, everything we eat does some good to our bodies, but if we eat too much of one kind of food and pay no attention to others, we may have too much of one kind of chemical substance and not enough of others. Then we may be in trouble.

We are often told that we must eat some meat at each meal in order to get the necessary protein. That is only partly true, for proteins are not found only in meat. We can also get them from some vegetables. The best advice about what to eat is that we should eat all kinds of food but never too much of any.

6. According to the passage, we now know.....
A. more and more about food and health. B. what food is fit to eat.
C. how many kinds of vitamins there are. D. food is important in the growth of our bodies.
7. The word "**take care of**" in the passage is CLOSEST in meaning to
A. produce B. create C. look after D. support
8. The writer thinks we should.....
A. be careful in choosing food B. eat special food
C. have limited food D. have balanced food
9. To get proteins, we must eat.....
A. more meat B. only vegetables
C. meat, vegetables and protein D. food and vitamin pills
10. The main topic of the passage is.....
A. vitamins and proteins B. food and health
C. meat, vegetables and protein D. food and vitamin pills

*** Read the following passage and mark the letter A, B, C or D to indicate the correct word or phrase that best fits each of the blanks .**

The Ig Nobel Prize is a copy of the famous Nobel Prize. It ...(11)... to achievements and inventions that " first make people laugh, then make them think". Its...(12)... is to celebrate the unusual and imaginative

achievements, mostly in science, medicine, and..(13).. Contrary to people's common belief that the prizes are given to unimportant works, the prize winners' findings need to be based ..(14).. serious research. Every year, a ceremony is held at Harvard University, and ten prizes made of tinfoil are awarded to the winners,..(15).. have to pay for their own accommodations and transport to Cambridge.

| 17. A. who | B. that | C. which | D. whom |

*** Read the following passage and mark the letter A, B, C or D to indicate the correct answer to each of the questions .**

Today our knowledge of food and what it does for our bodies is far more advanced than that of the ancient. Now we know about vitamins and how each kind of vitamin helps in the growth of a particular part of our bodies. There are on the market all kinds of vitamin pills which one can take to make up for one's lack of certain important things which are needed for normal health. Of course, if we eat well and properly, the food that we eat will take care of our bodies without these pills and so there is no need to take any kinds of vitamin pills unless our doctor tells us that our bodies are short of something which can be supplied by them.

Generally speaking, everything we eat does some good to our bodies, but if we eat too much of one kind of food and pay no attention to others, we may have too much of one kind of chemical substance and not enough of others. Then we may be in trouble.

We are often told that we must eat some meat at each meal in order to get the necessary protein. That is only partly true, for proteins are not found only in meat. We can also get them from some vegetables. The best advice about what to eat is that we should eat all kinds of food but never too much of any.

18. According to the passage, we now know.....
- | | |
|--|---|
| A. more and more about food and health. | B. what food is fit to eat. |
